Putting it into Perspective...

Do you know how many of your clients were protected by flood insurance this past year? How many of them suffered uninsured flood losses? And how many will not be insured this year?

Are you uncertain of the rules and regulations concerning flood insurance? Unsure of exactly how to write a policy? Are you aware of your E&O exposure, if you don't? Do you know where to go for all the information needed?

No matter whether you are a NFIP novice or an experienced writer of flood insurance, this seminar will provide you with a beneficial understanding of how to effectively interact with the National Flood Insurance Program and its products.

All agency and company personnel are urged to attend.

What's new for you to learn:

- Lessons learned from Hurricane Isabel
- How to protect your clients and yourself
- Program Changes Effective 5/1/04

...and much, much more

Benefits

You will receive:

- Practical and simplified technical and marketing know-how.
- Explanations of NFIP terms, rules, and forms.
- Instructions for ordering maps, policy supplies, and brochures.
