COMMUNITY RATING SYSTEM

I. GENERAL DESCRIPTION

The Community Rating System (CRS) is a voluntary program for National Flood Insurance Program (NFIP) participating communities. The goals of the CRS are to reduce flood damages to insurable property, strengthen and support the insurance aspects of the NFIP, and encourage a comprehensive approach to floodplain management.

The CRS has been developed to provide incentives in the form of premium discounts for communities to go beyond the minimum floodplain management requirements to develop extra measures to provide protection from flooding.

II. ELIGIBILITY

For a community to be eligible, it must be in full compliance with the NFIP and be in the Regular phase of the program. Table 1 shows the categories that are eligible for CRS premium discounts.

The following categories are not eligible for CRS premium discounts:

- Emergency Program communities
- Preferred Risk Policies
- Mortgage Portfolio Protection Program policies
- Post-FIRM buildings located in a Special Flood Hazard Area (SFHA) where the elevation difference used for rating is at least 1 foot or more below the Base Flood Elevation (BFE), with the following exceptions:
 - Post-FIRM V-Zone buildings with unfinished breakaway wall enclosures and machinery or equipment at or above the BFE; *and*
 - Subgrade crawlspaces with certification from a community official. The subgrade crawlspace exception must be certified by a community official letter containing the following statement:

"I certify that the building located at _____ [address] has a crawlspace that was built in compliance with the NFIP requirements for crawlspace construction as outlined in FEMA Technical Bulletin 11-01, Crawlspace Construction for Buildings Located in Special Flood Hazard Areas."

III. CLASSIFICATIONS AND DISCOUNTS

All communities start out with a Class 10 rating (which provides no discount). There are 10 CRS classes: Class 1 requires the most credit points and gives the greatest premium discount; Class 10 identifies a community that does not apply for the CRS, or does not obtain a minimum number of credit points and receives no discount. There are 18 activities recognized as measures for eliminating exposure to floods. Credit points are assigned to each activity. The activities are organized under 4 main categories: Public Information, Mapping and Regulation, Flood Damage Reduction, and Flood Preparedness. Once a community applies to the appropriate Federal Emergency Management Agency (FEMA) region for the CRS program and its implementation is verified, FEMA sets the CRS classification based upon the credit points. This classification determines the premium discount for policyholders. Premium discounts ranging from 5% to a maximum of 45% will be applied to eligible policies written in a community as recognition of the floodplain management activities instituted. Table 2 shows premium discounts for CRS Classes 1-10 within different flood zones. Table 3 lists all CRS eligible communities and their discounts.

IV. CRS ACTIVITIES THAT CAN DIRECTLY BENEFIT INSURANCE AGENTS/PRODUCERS

Certain activities credited under the CRS provide direct benefit to agents/producers writing flood insurance.

All CRS communities must maintain completed FEMA elevation and floodproofing certificates for all new and substantially improved construction in the SFHA after the date of application for CRS classification. These certificates must be available upon request. Therefore, in writing a policy, an agent/producer should be able to get these certificates from any CRS community. In addition, some CRS communities receive credit for having completed certificates for Post-FIRM buildings constructed prior to the CRS application date. If they do receive this credit, then these certificates should also be available to agents/producers writing flood insurance. The community may charge a fee for copying certificates.

Many CRS communities receive credit for providing inquirers with information from the community's Flood Insurance Rate Map (FIRM). This includes a property's flood risk zone and the BFE. The service must be publicized once a year. If a community is receiving this credit, then agents/producers should be able to use the service. A fee may be charged for the service.
