**SUMMARY OF THE NFIP PROGRAM CHANGES
EFFECTIVE APRIL 1, 2020 AND JANUARY 1, 2021**

National Flood Insurance Program

April 1, 2020 and January 1, 2021, Program Changes: A Summary

The changes outlined in this bulletin apply to new business and renewals that will become effective on or after April 1, 2020; the premium changes for Preferred Risk Policies (PRPs) and Newly Mapped procedure policies will become effective January 1, 2021. See Attachment B for updated rate tables effective April 1, 2020, and Attachment C for updated PRP premiums and Newly Mapped base premium and multiplier tables effective January 1, 2021.

FEMA may update or modify these Program Changes to implement and transition to Risk Rating 2.0.

1. Premium Increases and Surcharges

Overall, premiums will increase from an estimated average of \$873 per policy to \$972, for an average increase of 11.3 percent. These amounts do not include the Homeowners Flood Insurance Affordability Act (HFIAA) surcharge or the Federal Policy Fee (FPF). When the HFIAA surcharge and FPF are included, the total amount billed the policyholder will increase from \$993 to \$1,092, for an average increase of 9.9 percent.

Premium increases effective April 1, 2020, comply with all the requirements of both the Biggert-Waters Flood Insurance Reform Act of 2012 (BW-12) and the Homeowner Flood Insurance Affordability Act of 2014 (HFIAA). Those requirements are as follows:

- Premium rates for four categories of Pre-Flood Insurance Rate Map (FIRM) subsidized policies – non-primary residential properties, business properties, Severe Repetitive Loss (SRL) properties (which includes cumulatively damaged properties), and substantially damaged/substantially improved properties – must be increased 25 percent annually until they reach full-risk rates;
- The *average* annual premium rate increases for all other properties within a single risk classification may not be increased by more than 15 percent a year, while the *individual* premium rate increase for any individual policy may not be increased by more than 18 percent each year; and
- The average annual premium rate increase for all Pre-FIRM subsidized policies must be not less than 5 percent per year.

There are some limited exceptions to the 18-percent cap on premium rate increases for individual policyholders. These include policies on the properties listed above that are subject to the 25-percent annual premium rate increases. The 18-percent per policy limit also does not apply when a community experiences a rating downgrade under the Community Rating System (CRS), the policy was misrated, or the policyholder increases the amount of insurance purchased or decreases deductibles. The NFIP Flood Insurance Manual describes the specific scenarios that constitute a misrating.

When the NFIP evaluates premium rate increases for compliance with these caps, the analysis includes the building and contents premium, the Increased Cost of Compliance (ICC) premium,

and the Reserve Fund Assessment (RFA). The Probation Surcharge, FPF, and Congressionally-mandated HFIAA Surcharge are not considered premium and, therefore, are not subject to the premium rate cap limitations. As a result, in some cases, the increase in the total amount a policyholder is charged may exceed 18 percent.

For policies issued on or after April 1, 2020, there will be no changes to:

- ICC Premium
- Deductible Factors
- Federal Policy Fee
- HFIAA Surcharge
- Probation Surcharge

- **Pre-FIRM Subsidized Policies** (a group of policies in Special Flood Hazard Area (SFHA) Zones A, AO, AH, A1-30, AE, A99, AR, AR/A1-30, AR/AE, AR/AO, AR/AH, AR/A, V1-30, and VE, that receive rates insufficient to pay the anticipated losses and expenses for that group)
 - Primary Residences: The combined premium increase for all primary residence policies in these zones is 7.9 percent, with a total amount billed increase of 7.5 percent.
 - Pre-FIRM Subsidized Policies Subject to 25 Percent Annual Premium Increases: The increases in both the average premium and the average amount billed for each of the four following categories are as shown:
 - Non-Primary Residences: Premiums will increase 24.7 percent, with a total amount billed increase of 23.1 percent.
 - Business Policies: Premiums will increase 25.1 percent, with a total amount billed increase of 24.2 percent.
 - Severe Repetitive Loss (SRL) Properties: Premiums will increase 24.8 percent, with a total amount billed increase of 24 percent.
 - Substantially Improved Properties: Premiums will increase 24.7 percent, with a total amount billed increase of 23.8 percent.

- **Other Subsidized Policies**
 - A99 Zones (i.e., zones in which flood protection systems are still in the process of being constructed) and AR Zones: Premiums for these policies will increase 4.6 percent, with a total amount billed increase of 4.2 percent. Premium increases for A99 and AR zone policies eligible for the PRP are described below.

- **V Zones** (coastal high-velocity zones)

FEMA is implementing rate increases again this year as a result of the Heinz Center's Erosion Zone Study, which clearly indicates that current rates significantly underestimate the increasing hazard from steadily eroding coastlines.

 - Post-FIRM V Zones: Premiums will increase 5.9 percent, with a total amount billed increase of 5.6 percent.

- **A Zones** (non-velocity zones, which are primarily riverine zones)
 - Post-FIRM A1-A30 and AE Zones: Premiums will increase 5 percent, with a total amount billed increase of 4.1 percent.
 - Post-FIRM AO, AH, AOB, and AHB Zones (shallow flooding zones): Premiums will increase 3.5 percent, with a total amount billed increase of 2.7 percent.
 - Post-FIRM Unnumbered A Zones (remote A Zones where elevations have not been determined): Premiums will increase 5.8 percent, with a total amount billed increase of 5.1 percent.
- **X Zones** (zones outside the Special Flood Hazard Area)
 - Standard-Rated Policies: Premiums will increase 4.3 percent, with a total amount billed increase of 3.8 percent.
- **Miscellaneous**
 - Tentative and Provisional Rates: No change.
 - Mortgage Portfolio Protection Program (MPPP) Policies: No change.
- **Changes to Become Effective January 1, 2021**
 - Preferred Risk Policies (PRPs): Premiums will increase 14.9 percent, with a total amount billed increase of 12.5 percent.
 - A99 and AR Zone Policies eligible for the PRP: Premiums will increase 14.9 percent, with a total amount billed increase of 12.2 percent.
 - Properties Newly Mapped into the SFHA: Newly Mapped policies receive PRP premiums during the first year following the effective date of the map change. Annual increases to these policies result from the use of a “multiplier” that varies by the year of the map change; this multiplier is applied to the base premium before adding the ICC premium. The RFA is added after the ICC premium, and this subtotal is the amount subject to the annual premium rate increase cap. The HFIAA Surcharge, Probation Surcharge (if applicable), and the FPF will be added to the premium; they are not subject to the cap on annual premium rate increases. As a result of increases to the multiplier that will be effective January 1, 2021, premiums for Newly Mapped policies will increase 14.8 percent, with a total amount billed increase of 12.5 percent.

2. **SRL Premium**

For policies effective on or after April 1, 2020, FEMA is increasing the SRL Premium to 10 percent for all policies covering properties with an SRL designation.

3. **Reserve Fund Assessment**

For policies effective on or after April 1, 2020, FEMA is increasing the Reserve Fund Assessment percentage to 18 percent.

4. Primary Residence Guidance

FEMA is updating Primary Residence Determination Guidance. If the mailing address and property address are the same on a policy or application, and the policy or application indicates that coverage is for a primary residence, insurers can issue the policy as for a primary residence without requiring additional documentation. In these cases, use primary residence status to determine the HFIAA Surcharge and the premium rates to calculate the policy premium. If the addresses do not match, and the policy or application indicates that coverage is for a primary residence, insurers must obtain supporting documentation using existing guidance to validate a primary residence.

5. Non-Residential Floodproofing Premium Credit

For policies effective on or after April 1, 2020, FEMA is updating guidance for the non-residential building floodproofing rating credit. The insurer must use the Special Rate process to submit the following documents to FEMA for consideration of the credit:

- Flood Insurance Application
- Elevation Certificate
- Floodproofing Certificate
- Photographs of the exterior of the building (all sides)
- Photographs of the components used to provide floodproofing protection (shields, gates, barriers)
- Flood Emergency Plan that includes:
 - Chain of command
 - Notification procedures
 - Personnel duties
 - Location of floodproofing components, install procedures, repair procedures
 - Evacuation procedures for building occupants
 - Component maintenance procedures during flooding event
 - Drill and training program (at least once a year)
 - Regular review/update of Flood Emergency Plan
- Inspection and Maintenance Plan that includes:
 - Inspection procedures for entire Floodproofing System: wall systems, floor slab, openings, floodproofing components, valve operation, drainage/pump systems, equipment/tools required to engage floodproofing measures
 - Cadence of Inspection and Maintenance Plan

FEMA is also changing the methodology used to establish a rate for a non-residential floodproofed building. Instead of establishing the premium rate based on the elevation difference of the floodproofed elevation (if at least 1 foot above the Base Flood Elevation), FEMA will establish the base rate from the elevation difference between the lowest floor elevation of the building and the Base Flood Elevation. FEMA will apply a credit (percentage discount) to that rate based on the information provided for the floodproofing components. To be considered for the credit, insurers should continue to submit the information to FEMA by using the FEMA Special Rate process.

6. Discontinuation of the V-Zone Risk Rating Factor Form

For policies effective on or after April 1, 2020, FEMA is discontinuing the use of the V-Zone Risk Rating Factor Form.

UPDATED RATE TABLES
EFFECTIVE APRIL 1, 2020

Appendix J: Rate Tables

I. Effective Date of Rates

FEMA updates its flood insurance rates once a year, but on occasion the effective date varies. Most of the following tables present rates that **become** effective April 1, **2020**. However, some Preferred Risk Policy (PRP) and Newly Mapped (NM) tables have effective dates of January 1, **2020** or January 1, **2021**. Affected tables will include the January dates above the table title.

II. Rates for Standard NFIP Policies

Table 1 presents annual rates per \$100 of coverage for properties in Emergency Program communities. Tables 1–5 show annual rates per \$100 of coverage for properties in Regular Program communities, according to Pre-FIRM premium rates, or Post-FIRM/full-risk premium rates for each zone classification. Table 6 provides tentative rates (for more information, refer to the Tentative Rates subsection in the How to Write section). Tables 7A–7C detail the Federal Policy Fee, Probation Surcharge, Reserve Fund Assessment, and HFIAA Surcharge.

IMPORTANT TO NOTE

The rate tables in this Appendix have the same numbering as the tables in the April 2018 NFIP Flood Insurance Manual sections from which they came. These table numbers are tied to the Transaction Record Reporting and Processing Plan (TRRP) and cannot be modified at this time.

We have included the section abbreviation used in the April 2018 manual (e.g., RATE, CONDO, etc.) before the word “Table” in the titles in this appendix.

1. Pre-FIRM construction refers to a building that has a date of construction or substantial improvement date on or before 12/31/74, or before the effective date of the initial Flood Insurance Rate Map (FIRM), whichever is later. If there has been a lapse in coverage, refer to Table 10, Pre-FIRM Subsidized Rate Ineligibility Determination, to confirm whether Pre-FIRM subsidized rates can be used.
2. Refer to Table 11, Pre-FIRM Rate Table Hierarchy, to determine which Pre-FIRM rate table to use.
3. Any policy designated as SRL is subject to the SRL premium. Refer to Table 7D, Severe Repetitive Loss Premium, in this section.
4. Pre-FIRM buildings may use Post-FIRM elevation rating if more favorable to the insured. However, when the lowest floor elevation is below the Base Flood Elevation (BFE), follow the Submit-for-Rate procedures for policy processing.
5. For further guidance on Non-Residential Business and Other Non-Residential occupancies, refer to the Before You Start section of this manual.
6. For an elevated building on a crawlspace with an attached garage without openings, use “With Enclosure” rates.
7. Manufactured (Mobile) Homes include travel trailers that meet the definition of a building; refer to Appendix L: Definitions in this manual.
8. Includes subgrade crawlspace.
9. Includes crawlspace.

1. Pre-FIRM construction refers to a building that has a date of construction or substantial improvement date on or before 12/31/74, or before the effective date of the initial Flood Insurance Rate Map (FIRM), whichever is later. If there has been a lapse in coverage, refer to Table 10, Pre-FIRM Subsidized Rate Ineligibility Determination, to confirm whether Pre-FIRM subsidized rates can be used.

1. Pre-FIRM elevated buildings with or without enclosure/crawlspace must use the “No Basement/Enclosure/Crawlspace” columns. Use Appendix C: Lowest Floor Guide to determine the lowest floor elevation for rating. Unfinished partial enclosures below a Pre-FIRM building that are used solely for parking, storage, and building access and are located below the BFE are eligible for Special Rate Consideration.
2. Any policy designated as SRL is subject to the SRL premium. Refer to Table 7D, Severe Repetitive Loss Premium, in this section.
3. If the Lowest Floor is –1 because of an attached garage and the building is described and rated as a single-family dwelling, refer to the Lowest Floor Determination subsection in Appendix C: Lowest Floor Guide in this manual or contact the insurer for rating guidance; rate may be lower.
4. If the lowest floor of a crawlspace or subgrade crawlspace is –1, use Submit-For-Rate procedures (Pre-FIRM or Post-FIRM). If the lowest floor of an enclosure below the elevated floor of a Post-FIRM building is –1, also use Submit-For-Rate procedures.
5. Includes subgrade crawlspace.
6. Use Submit-for-Rate procedures if there is an elevator below the BFE regardless of whether there is an enclosure or not.
7. Manufactured (Mobile) Homes include travel trailers that meet the definition of a building; refer to Appendix L: Definitions in this manual.
8. For elevations of –2 and below and –1 and below for Manufactured (Mobile) Homes, follow Submit-for-Rate procedures in this manual. These rates supersede the rates in the SRG manual.
9. For further guidance on Non-Residential Business and Other Non-Residential occupancies, refer to the Before You Start section of this manual.

- Any policy designated as SRL is subject to the SRL premium. Refer to Table 7D, Severe Repetitive Loss Premium, in this section.
- Pre-FIRM construction refers to a building that has a start of construction date or substantial improvement date on or before 12/31/74, or before the effective date of the initial FIRM, whichever is later. If there has been a lapse in coverage, refer to Condo Table 2B, Pre-FIRM Subsidized Rate Ineligibility Determination, to confirm whether Pre-FIRM subsidized rates can be used.
- Refer to the Pre-FIRM rating hierarchy guidance and chart in Condo Table 2C to determine which Pre-FIRM rate table to use.
- Pre-FIRM buildings may use Post-FIRM elevation rating if more favorable to the insured. However, when the lowest floor elevation is below the Base Flood Elevation (BFE), follow the Submit-for-Rate procedures for policy processing.
- Pre-FIRM elevated buildings with or without enclosure/crawlspaces must use the "No Basement/Enclosure/Crawlspaces" columns. Use Appendix C: Lowest Floor Guide in this manual to determine the lowest floor elevation for rating. Unfinished partial enclosures below a Pre-FIRM building that are used solely for parking, storage, and building access and are located below the BFE are eligible for Special Rate Consideration.
- Includes subgrade crawlspace.
- Use Submit-for-Rate procedures if there is an elevator below the BFE regardless of whether there is an enclosure or not.
- If the lowest floor of a crawlspace or subgrade crawlspace is -1, use submit-for-rate procedures (Pre-FIRM or Post-FIRM). If the lowest floor of an enclosure below the elevated floor of a Post-FIRM building is -1, also use submit-for-rate procedures.

1. Any policy designated as SRL is subject to the SRL premium. Refer to Table 7D, Severe Repetitive Loss Premium, in this section.
2. Post-FIRM buildings in zones A, AO, or AH with basement, enclosure, crawlspace, or subgrade crawlspace: follow Submit-for-Rate procedures. Pre-FIRM buildings in AO or AH Zones with basement/enclosure/crawlspace/subgrade crawlspace at or above the BFE or Base Flood Depth are to use the "With Certification of Compliance or Elevation Certificate" rates and would not have to follow Submit-for-Rate procedures.
3. "With Certification of Compliance or Elevation Certificate" rates are to be used when the Elevation Certificate shows that the lowest floor elevation used for rating is equal to or greater than the community's elevation requirement, or when there is a Letter of Compliance. This rule applies to all building types, including buildings with basement/enclosure/crawlspace/subgrade crawlspace.
4. "Without Certification of Compliance or Elevation Certificate" rates are to be used on Post-FIRM buildings when the Elevation Certificate shows that the lowest floor elevation is less than the community's elevation requirement. These rates may be used for Pre-FIRM buildings when more favorable to the insured than Pre-FIRM subsidized rates.
5. Pre-FIRM buildings in Unnumbered A Zones with basement, enclosure, or crawlspace may use this table if the rates are more favorable to the insured. For buildings with subgrade crawlspace, follow the optional Submit-for-Rate procedures.
6. For elevation-rated policies, when contents are located 1 floor or more above the lowest floor used for rating, use .35/.12.
7. NO BASE FLOOD ELEVATION: Elevation difference is the measured distance between the lowest floor of the building and the highest adjacent grade next to the building.
8. WITH BASE FLOOD ELEVATION: Elevation difference is the measured distance between the lowest floor of the building and the BFE provided by the community or registered professional engineer, surveyor, or architect.
9. For policies with effective dates on or after October 1, 2011, the NO ELEVATION CERTIFICATE rates apply only to renewals and transfers.

1. Any policy designated as SRL is subject to the SRL premium. Refer to Table 7D, Severe Repetitive Loss Premium, in this section.

2. Pre-FIRM construction refers to a building that has a start of construction date or substantial improvement date on or before 12/31/74, or before the effective date of the initial FIRM, whichever is later. If there has been a lapse in coverage, refer to Condo Table 2B, Pre-FIRM Subsidized Rate Ineligibility Determination, to confirm whether Pre-FIRM subsidized rates can be used.

3. Refer to the Pre-FIRM rating hierarchy guidance and chart in Condo Table 3A to determine which Pre-FIRM rate table to use.

4. Pre-FIRM buildings may use Post-FIRM elevation rating if more favorable to the insured. However, when the lowest floor elevation is below the Base Flood Elevation (BFE), follow the Submit-for-Rate procedures for policy processing.

5. Zones AO, AH Buildings with basement/enclosure/crawl space/subgrade crawl space: follow Submit-for-Rate procedures. Pre-FIRM buildings in AO or AH Zones with basement/enclosure/crawl space/subgrade crawl space at or above the BFE or Base Flood Depth are to use the “With Certification of Compliance or Elevation Certificate” rates and would not have to follow Submit-for-Rate procedures.

6. “With Certification of Compliance or Elevation Certificate” rates are to be used when the Elevation Certificate shows that the lowest floor elevation used for rating is equal to or greater than the community’s elevation requirement, or when there is a Letter of Compliance. This rule applies to all building types, including buildings with basement/enclosure/crawl space/subgrade crawl space.

7. “Without Certification of Compliance or Elevation Certificate” rates are to be used on Post-FIRM buildings when the Elevation Certificate shows that the lowest floor elevation is less than the community’s elevation requirement. These rates may be used for Pre-FIRM buildings when more favorable to the insured than Pre-FIRM subsidized rates.

8. For transfers and renewals of existing business where there is no Letter of Compliance or Elevation Certificate in the company’s file, these rates can continue to be used. For new business effective on or after October 1, 2011, the provisions of footnote 4 apply.
